

An Example of How Funds Can Be Used

ILA Scotland provides the learner with up to £200 towards the cost of learning. How the learner chooses to spend these funds is up to them.

ILA Scotland funds can be used as payment for one single course or for several smaller courses throughout the year.

Examples of how ILA Scotland funds can be used are shown below.

Example

Joan Smith has £200 in her ILA Scotland account.

In August, she chooses a course that costs £50. The cost of her learning is covered by ILA Scotland.

Joan now has £150 left in her ILA Scotland account.

In October she chooses a course that costs £180. ILA Scotland contributes £150 towards the course and Joan pays the balance of £30 to the learning provider.
