

Apply now and get £200 to spend on learning new things

Thank you for finding out more about opening a learner account with ILA Scotland, a Scottish Government scheme that makes it easy for you to get up to £200 towards the cost of learning. You can use it to help pay for your choice of course from a wide range of exciting learning opportunities all over Scotland.

Accounts are only available to over 16s, who have an income of £22,000 a year or less or are on benefits. To apply, just complete the enclosed application forms and send them back to us - the notes included in this pack will help you fill them in.

It will take us about 14 days to process your application and if you are successful, we will send you a Welcome Pack with your account number and details of how to book courses. It's important that you don't book a course until we have sent you this pack as we can't fund courses booked before your account is opened.

If you need any more help or information, or if you'd like to know more about ILA Scotland before you apply, visit our website www.ilascotland.org.uk or call our helpline on 0808 100 1090*.

We look forward to receiving your application.

Yours sincerely,

ILA Scotland Support Team.

*Please note: charges may apply dependent on your operator.
