Services -	<p>Glasgow North ESF Project is a training and rehabilitation project for people who have experienced mental ill health. We offer vocational training, counselling and support to facilitate service users along the employment pathway.</p> <p>The aim of the project is to help people to build their confidence, develop their skills and move on with their lives. At the end of their time with us, we hope to have given our trainees the personal and communication skills necessary to cope confidently with day-to-day life, as well as that they can apply in the workplace or in their studies.</p>
