PACE: Partnership Action for Continuing Employment

PACE is a unique Scottish partnership initiative which provides support to employees when an organisation announces redundancies. The initiative established by the Scottish Government is being delivered by Skills Development Scotland and supported by national and local partners, offering a service to help individuals and businesses who are facing redundancy issues.

The recent improvements to PACE have included establishing a dedicated helpline for individuals and employers.

In addition Skills Development Scotland and Jobcentre Plus will be working closely together to create a seamless service between skills development and employability support to minimise the time people affected by redundancy are out of work.

For more information you can call the dedicated helpline **0808 100 1855** or visit www.skillsdevelopmentscotland.co.uk/redundancy
