

it pays to learn

Removal of the ILA Scotland Account Card

From 1 July 2009 people applying for ILA Scotland funding will no longer receive an account card with their Welcome Pack. As well as being more environmentally friendly, this initiative will help us achieve better value for money by reducing the cost of our fulfilment materials.

Learners will still receive a unique account number to access their funding. The number will be printed on the covering letter of their Welcome Pack as before and learners will still be required to present this to you along with a proof of identity when they book onto a course.

If you have a learner who is unable to locate their account number, please ask them to call the ILA Scotland helpline and quote the password set up on their account.
