

it pays to learn

## **Learning Conferences**

It is obviously the season for learning conferences and we are pleased to have been the sponsor of the Scottish Union Learning conference which took place in Stirling Management Centre in December. It was a great event which received excellent feedback from all of those who attended.

We are also delighted to be involved in both the PCS and Unite learning conferences which are taking place in February and April of this year. These are always excellent events and good opportunities to get out and meet ULRs. If your union is planning a similar event and would like to attend or be involved don't hesitate to get in touch.
